SULTHAN S | DATA ANALYST INTERN

+91 8075684718 | sulthansiyad33@gmail.com | Alappuzha, Kerala, India
http://www.linkedin.com/in/sulthan-s

SUMMARY

Detail-oriented Data Analyst with strong hands-on experience in data cleaning, exploratory data analysis (EDA), SQL querying, and dashboard development. Proven ability to transform raw data into actionable insights using Python, Power BI, and Excel. Background in Project Management and Web Development, bringing strong stakeholder communication, problem-solving, and data-driven decision-making skills.

SKILLS

- **Technical Skills:**
  - **Data Analysis & Querying:** SQL , Excel
  - **Programming:** Python
  - **Python Libraries:** Pandas, NumPy, Matplotlib, Seaborn
  - **Data Analytics:** Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), Trend Analysis
  - **Business Intelligence:** Power BI, Dashboard Development, KPI Tracking, Data Visualization
  - **Statistics & Metrics:** Descriptive Statistics, MAE, RMSE
  - **Tools:** Power BI Service, Jupyter Notebook, Git
- **Professional Skills:** Problem Solving, Communication

PROJECTS

- **Divvy Bikes Data Analysis**
  - Analyzed bike-sharing data to identify usage patterns and popular stations
  - Conducted univariate and bivariate analysis to uncover trends
  - Created visualizations to present insights clearly
- **Housing Data Analysis – Mexico**
  - Analyzed housing datasets to understand pricing trends and influencing factors
  - Visualized relationships between variables such as area, location, and price
- **Web Applications (Analytics-Oriented)**
  - Built a Flight Revenue Calculator to analyze revenue metrics
  - Developed a Library Management application to track and organize records
- **Uber Data Analytics Dashboard**
  - Developed an interactive **Power BI dashboard** to analyze Uber trip data, enabling insights into ride trends and key performance metrics.
  - Performed **data cleaning, transformation, and modeling**, including creating calculated measures using **DAX**
  - Designed clear, user-friendly visualizations and slicers to support data-driven decision-making for business analysis.

INTERNSHIPS

- **RP2 | Data Science Intern** **Jul 2025 – Present, Ernakulam, Kerala**
  - Learning and applying Python libraries (Pandas, NumPy, Matplotlib, Scikit-learn) along with SQL and Tableau for end-to-end data analysis and visualization through hands-on projects.
  - Conducted exploratory data analysis (EDA), feature engineering, and building basic machine learning models using Python and Scikit-learn to derive actionable insights from the available datasets.

EDUCATION

- BSc in PHYSICS | KERALA University | 2020 - 2023
